FAIRWAY&GREENE

## Born On Tradition

Our founders imagined themselves designing apparel in the summer of 1955 — a time when legends like Jimmy Demaret, Ben Hogan, Sam Snead, and Byron Nelson dominated the links. That vision set the tone for our brand: to capture the timeless mid-century elegance of golf and bring it to the modern player. From day one, we set out to represent the full history of golf, from the clubhouse to the course.

## The Fall 2026 Collection

This Fall, we honor the heritage of the game with a collection rooted in respect, performance, and tradition. Crafted for crisp mornings on the course and refined evenings at the clubhouse, our performance polos and expertly tailored layers embody the season's balance of comfort and sophistication. Each piece reflects a commitment to quality worthy of the game's enduring legacy. As the leaves turn and the air cools, move through the season with purpose, confidence, and respect for the game that inspires it all. From the first drive to the final putt, let every round be a tribute to golf's time-honored traditions.
