MARINE

WHITE

A man with light brown hair is wearing a navy blue polo shirt. The shirt has a self-fabric collar and a high shoulder seam. The man is standing in front of a green hedge. There are three callout boxes with white borders and black text. The first box points to the collar, the second to the shoulder seam, and the third to the bottom hem of the shirt. The background is a green hedge.

High Shoulder Seams

Our shoulder seam is designed to sit on top of your shoulder, creating a slimmer look.

A Collar That Stays Put

The self-fabric collar in our performance polos are structured enough that it doesn't need a collar stay.

Over the last 25 years, we've perfected the fit and fabric of our polos to be the very best. They're lightweight, wicking, quick drying, stretchy and supremely comfortable—in other words, exactly what you deserve.

Modern, Tailored Look

Fairway & Greene has come a long way since the box fit of the 90s. This updated fit flatters all body types.
